AFINUA Room

The integrative nature of the implementation of the New Urban Agenda across the five key action areas will take into consideration national and local priorities and specificities. This will allow addressing cross-cutting contexts that can be the ground for the identification of new research areas, ad-hoc evidence-based policies and urban solutions, innovative approaches and new action-oriented partnerships. The WUF9 will also be an opportunity to continue increasing the dialogue between national and subnational authorities on the New Urban Agenda implementation. In this context, specific events will be created to ensure effective discussion on action-oriented solutions involving representatives at all levels of government.

The World Assembly of Local and Regional Governments will have the possibility to continue engaging in discussion for the implementation of the New Urban Agenda, its follow-up and review.

The World Urban Forum will be a space for the subnational authorities to bring their tested examples on the implementation of the New Urban Agenda, as well as city to city collaboration and national-subnational experiences on vertical and horizontal cooperation.

Networking Events

Networking events will have a duration of two hours long and should focus on strengthening partnerships, calling for new alliances or launching joint initiatives on the implementation of the New Urban Agenda and the achievement of the Sustainable Development Goals.

They are an opportunity to share ideas and commitments in an effort to advance the sustainable urban development in cities and towns around the globe.

The call for networking event closed on 24th November 2017. The selection process has started and the WUF Secretariat will be in contact with the organizers in the next days. Only one networking event per organization will be accepted for further selection process. Selection will be announced 10 December 2017 onwards.

Criteria for Selection

To carry out the Networking Event, it is a pre-requisite that the organization holding the event has the required funds, including own travel and accommodation, if the event is selected.

All Networking Event organizers will be requested to self-report on their event activities to the World Urban Forum Secretariat to be part of the WUF9 report. More information on the reporting format will be provided after the selection process is completed.

Below are the criteria for assessing applications, apart from regional balance and thematic relevance:

- Thematic links to the WUF9 theme
- Quality of the proposal in terms of its expected outcomes and contribution to the implementation of the New Urban Agenda
- Inclusiveness in terms of age and gender balance, as well as participation of stakeholders
- Inclusiveness in terms of participation of Least Developed Countries (LDC) representatives or experiences
- Innovation in the outreach/mobilization strategy to promote attendance at the event
- Innovation in the monitoring of the expected outcome
Side events

Side events are one hour long and should focus on concrete examples of the implementation of the New Urban Agenda such as projects, research, data, etc. They are an opportunity to share data, knowledge and initiatives in an effort to advance the sustainable urban development in cities and towns around the globe.

The call for side events closed on 24th November 2017. The selection process has started and the WUF Secretariat will be in contact with the organizers in the next days. Only one side event per organization will be accepted for further selection process. Selection will be announced 10 December 2017 onwards.

Criteria for Selection

To carry out the side event, it is a pre-requisite that the organization holding the event has the required funds, including own travel and accommodation, if the event is selected.

All Side Event organizers will be requested to self-report on their event activities to the World Urban Forum Secretariat to be part of the WUF9 report. More information on the reporting format will be provided after the selection process is completed.

Below are the criteria for assessing applications, apart from regional balance and thematic relevance:

- Inclusiveness in terms of age and gender balance, as well as participation of stakeholders
- Inclusiveness in terms of participation of Least Developed Countries (LDC) representatives or experiences
- Innovation in the outreach/mobilization strategy to promote attendance at the event
- Innovation in the monitoring of the expected outcome
Training Events

Training events should focus on developing skills and knowledge of the WUF9 participants and targeted audiences, by providing “how to” approach to development challenges with innovative tools, methodologies and instruments to support the implementation of the New Urban Agenda and the achievement of the Sustainable Development Goals.

The call for training events closed on 24th November 2017. The selection process has started and the WUF Secretariat will be in contact with the organizers in the next days. Only one training event per organization will be accepted for further selection process. Selection will be announced 10 December 2017 onwards.

Criteria for Selection

To carry out the Training Event, it is a pre-requisite that the organization holding the event has the required funds, including own travel and accommodation, if the event is selected.

All Training Event organizers will be requested to self-report on their event activities to the World Urban Forum Secretariat to be part of the WUF9 report. More information on the reporting format will be provided after the selection process is completed.

Below are the criteria for assessing applications, apart from regional balance and thematic relevance:

Exhibition

Designed to attract a large audience, the World Urban Forum exhibition will be aligned with the overall theme of the conference and will be open to the public and participants.

The WUF9 exhibition will comprise a massive exhibition, informal discussion space and the latest innovations on the implementation of the New Urban Agenda by bringing together the International urban world.

Countries and city programs, initiatives, partnerships and urban solutions will be showcased to address the challenges of sustainable urban development. Private sector will present services, products and innovative solutions to urban issues and non-governmental organizations and academics will present the projects on implementation on urban trends.

United Nations agencies and other international organizations will profile their work on building better cities globally.

How to participate in the WUF9 Exhibition

- Read the Exhibition Guide carefully.
- Reserve an exhibitor’s booth using the Exhibition Application Process. Include all exhibition-related details such as the type of stand and size.
- Deadline for applications is 24 November 2017 at 23:59 (UTC+3)
- The WUF Secretariat will review all applications and will revert with confirmation of whether your application has been approved.
- If approved, you will receive the booking confirmation and information on the next steps to complete the process.
- In order to confirm your reservation, payment must be done by 10 January 2018.
- The WUF Secretariat will send you information regarding the location of your booth. Please note that the final location will be confirmed fifteen (15) days before the opening of the forum.
- Check the procedure of Entry of Goods into Malaysia.
- For more information, please contact the WUF Secretariat on wufexhibition@unhabitat.org

The Technical Visits are a result of Malaysia's engagement with various urban stakeholders in the light of the WUF9 theme "Cities 2030 Cities for All: Implementing New Urban Agenda".

During the visits, WUF9 delegates will experience and learn more about Malaysia's urban wellbeing concept and its urbanisation process, within the specific topic that the delegates choose.

The outcome from the technical visits will contribute to the knowledge of WUF9 delegates, who can bring back to their cities all the experience shared during technical visits. The technical visits are free of charge, transportation and meals are provided. PLEASE CHOOSE YOUR ROUTE AND SESSION.

Closing Date 30th January 2018
ROUTE 1
Social Enterprise

Malaysia has been taking proactive steps to build a strong infrastructure for the Malaysian entrepreneurship scene in the global landscape. Creativity and innovation for entrepreneurs needs to be strengthened to capture the competitive market. The development of a strong and sustainable entrepreneurship ecosystem is a key economic driver for the nation to remain competitive.

Technical Visit Starts at 8.00 am

Project B – Youth Cafe
Project B is a café staffed and fully run by the children, under the guidance of all partners to Berjaya Group of Companies. This programme serves as a platform for them to gain work experience, harness their skills and potentially discover their talents. The participants are children from socially and economically underprivileged families, aged between 17 to 20 years old, lacking adequate finances and support from their families. Distance from Kuala Lumpur City Centre – 8 km

Urban Farming
Herb Garden PPR Raya Permai which is located and connected to the neighbouring townships Sri Petaling, Kampung Malaysia Raya and the capital city centre via the Sungai Besi Expressway. Urban farming activities in this area can contribute to the availability of fresh and nutritious food items, reduction in food expenditure and having direct access to varieties of food products. Distance from Kuala Lumpur City Centre – 15 km

Medan Pasar and Green Market
Medan Pasar is a part of a government initiative to revive in historic downtown Kuala Lumpur. Medan Pasar, in the middle of old Kuala Lumpur, used to be a bustling place for traders back in the mid-1800s, thriving with banks, textile shops and traditional medical halls. Urbanisation has significant impacts on rural areas, and demand for food is perhaps the most important, together with demand for other natural resources (water, timber, etc.). In many regions of the world, we are witnessing an increase in production, especially of perishable and high-value products such as fruit, vegetables, and dairy, responding to urban demand. This is especially the case in rural areas that are well connected to urban markets by transport links, communications and electricity, and by networks of local traders.
